

## **Economic Revitalization Zone - Incentive Application**

Deadline: February 10, 2022

Dear Somersworth Business,

I am pleased to inform you of a program Somersworth has to incentivize economic development efforts. Economic Revitalization Zones or ERZ's are zones created in a city or town with a purpose to stimulate economic redevelopment, expand the commercial and industrial base, create new jobs, reduce sprawl and increase tax revenues by encouraging economic revitalization. Businesses located within a zone could qualify for business tax credits for projects that improve infrastructure (capital investment) and create new incremental jobs.

If you are located in one of these zones and if you are planning any investment in your business and can hire one or more new full-time employee(s), you could qualify to receive credits that would offset your Business Profits Tax and Business Enterprise Tax.

Below you will find the contact information for the NH Tax Incentive Program Manager, Bridgett Beckwith. To find out if your business is located in a zone, or for more information on how the program works and how this can benefit your business, please reach out to either Bridgett or me.

Sincerely,

*Robin*
